## INTRODUCTION

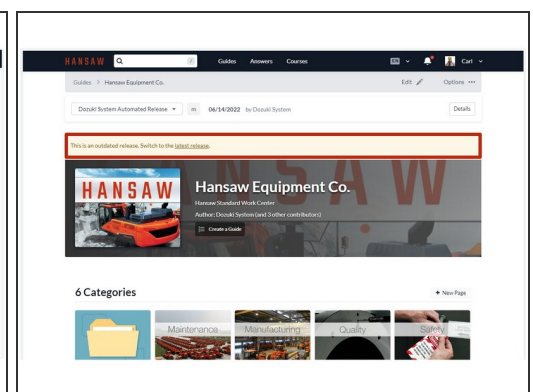

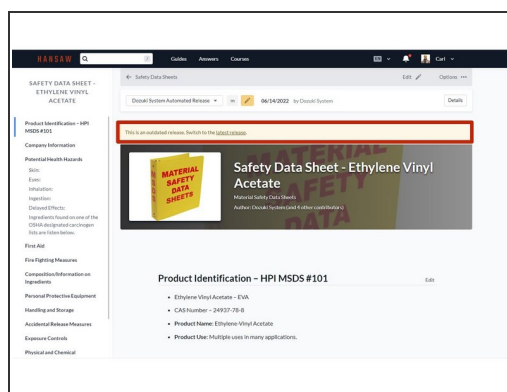

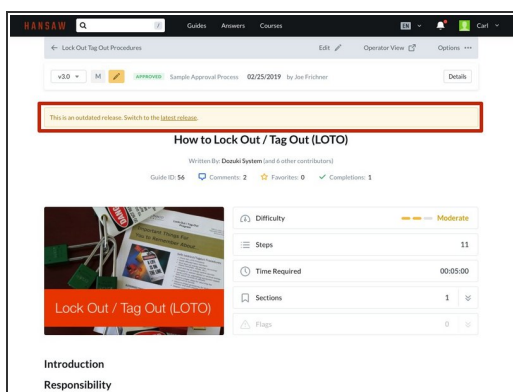

This guide demonstrates how to view past versions of a guide, wiki, or category page.

## Step 1 — How to View Past Versions of a Guide, Wiki, or Category Page

- Navigate to the guide, wiki, or category page.
- Click the version **drop-down menu** in the upper-left of the page.
- Select the version that you want to view.

## Step 2

- Viewing a previous version always includes a warning, which also includes a link back to the **latest release** for the guide, wiki, or category page.
- ① Different types of pages have different layouts, but the process for viewing previous releases is the same for all three, even for your site's main page.

## Step 3 — Review Past Revisions

The left screenshot shows the 'How to Lock Out / Tag Out (LOTO)' guide page. The 'Options' menu is open, and the 'History' option is highlighted. The right screenshot shows the 'Edit History: How to Lock Out / Tag Out (LOTO)' page, which displays a list of past revisions. A yellow box highlights the 'Browse past guide revisions' section on the right side of the page.
