INTRODUCTION

Purpose

This guide demonstrates how to add tags to a wiki.

Overview

Tags increase search popularity by including extra words that many would think of in relation to a specific wiki.

Step 1 — How to Add Tags to a Wiki

- Open the wiki that needs tags.

- Click on the **Edit** button in upper-right of the page, under the site header.

- Scroll down to the **Tags** section, in the lower-right of the page.

Step 2
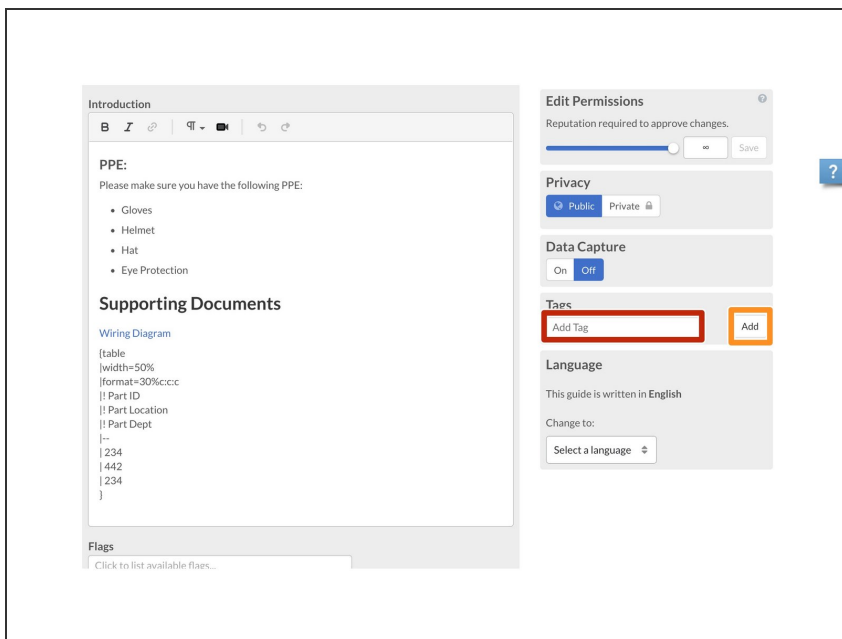

- In the **Add Tag** field, type in the tag that you want to attach to the wiki.

- When finished typing in the tag, click **Add**.

Step 3

- At this point, you can add another tag, delete the tag you created, or edit the tag you created.

- When you have finished editing the tags, click on the **Save Tags** button.
