# How to Create a Zendesk Account

How to Create a Zendesk Account

Written By: Dozuki System

Step 1 — Prior Contact with Dozuki Support
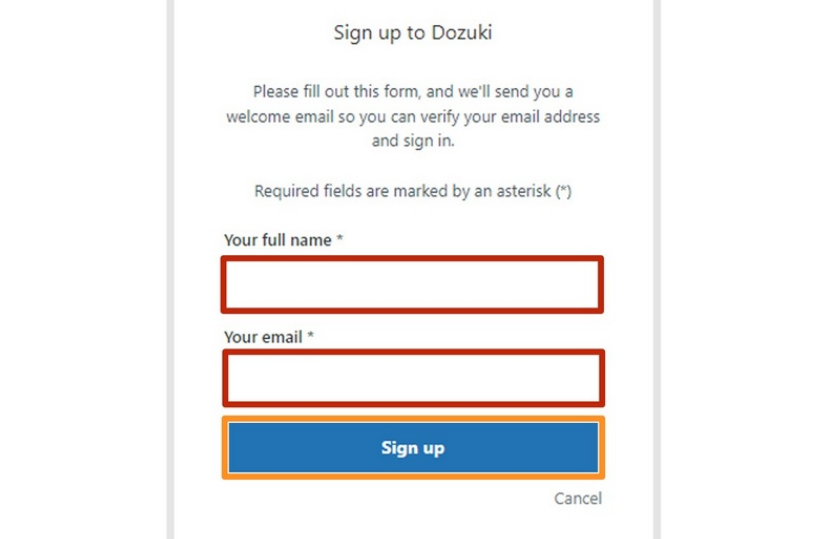

(i) If you have already reached out to the Dozuki support team, or were CC'ed on any emails sent to support@dozuki.com, you already have an account in Zendesk and only need to verify it.

● On the main login screen, click **Get a Password.**

● An email with a recovery link will be sent to your inbox.

Step 2 — No Prior Contact with Dozuki Support

(i) If you have never been in touch with Dozuki's support team, you will need to create a login normally.

● Enter your name and email address in the fields.

● Click **Sign up,** then check your inbox for the email to verify and activate your account.
